Hearts of Gold

CERCIS CANADENSIS

The first known gold-foliaged Cercis! Add a stunning array of colour to your garden moving through purple, red, gold and green throughout the year. This wonderful native redbud displays a riot of color in early spring as brilliant lavender-purple blooms appear on bare branches. Spring foliage emerges red, maturing to gold; shaded leaves will be green. Large, heart shaped leaves are burn-resistant even in full summer sun. Likes to be in full or partial sun. Once established they need only occasional water, unless in extreme heat then a little more often. Beautiful as a feature tree or group together as an informal hedge.

SIZE	H 5m x W 4m
BLOOM TIME	Early spring
FOLIAGE	Golden yellow
HABIT	Small deciduous tree
PROPAGATION METHODS	Cutting
HARDINESS	
USDA HARDINESS ZONES	5 to 9
LICENCE	Available NZ
PROTECTION STATUS	NZ PVR30889
