White Sands (Platinum Beauty)

LOMANDRA LONGIFOLIA

Effortlessly stylish Lomandra 'White Sands' wows with its world first, variegated foliage. Elegant, arching grey-green leaves are highlighted with white edges and a white stripe down the middle. The lightly coloured foliage and minimal lines are perfect in pots and containers for an edgy textured look and also wonderful for creating colour and texture contrast in garden beds. This easy to grow plant thrives in challenging environments, is heat and drought resistant and extremely low maintenance making it a landscaping hero. Happiest in full sun but will also grow in partial shade. Evergreen
