Dream Catcher

DAHLIA HYBRIDA

'Dream Catcher' is part of the new Dream series bred by Dr Keith Hammett of New Zealand, characterised by their stunning double flowers. 'Dream Catcher' has a brilliant red flower overlaid with a ring of dainty pink petals at the centre. A dark green foliage adds extra contrast to highlight these stunning blooms. These plants work wonderfully in bright container collections for deck or patio colour, excellent as cut flowers and are stunning in cottage style gardens, mass planted among grasses or anywhere you want to add colour. Best grown in full sun, this perennial will die down in winter and be bursting back into life in spring.

SIZE	H 0.6m x W 0.6m
BLOOM TIME	Summer to autumn
FOLIAGE	Mid-green
HABIT	Tidy, self supporting
PROPAGATION METHODS	TC
HARDINESS	Frost tender
USDA HARDINESS ZONES	6 to 10
LICENCE	Available Worldwide
PROTECTION STATUS	Grown under Licence
