Emperor

MAGNOLIA HYBRID

Magnolia 'Emperor' is another beauty, bred by revered New Zealand breeder Vance Hooper, and a true monarch of the magnolia world. Magnificent with its bountiful display of dark pink flowers that grow to an impressive 30cm diameter, 'Emperor' puts on a stunning early spring display. Glossy green leaves add a lovely background to a second round of flowering in summer. 'Emperor' is perfect as a garden feature tree but also wonderful in containers on the terrace. Plant in moist free draining, fertile soils with full sun for at least half the day. Winter hardy to -15 °C. Deciduous.

SIZE	H 5m x W 3.5m
BLOOM TIME	Mid-spring
FOLIAGE	Rich, dark green
HABIT	Tall, slender habit
PROPAGATION METHODS	Cutting / budding
HARDINESS	Cold tolerant
USDA HARDINESS ZONES	5 to 10
LICENCE	Available Worldwide
PROTECTION STATUS	USPPAF
