Watermelon

MAGNOLIA HYBRID

One of the most delightful 'new generation' magnolias for its overall form and outstanding performance 'Watermelon' is a must for magnolia lovers. Bred by renowned New Zealander breeder Vance Hooper, 'Watermelon' turns heads with large luscious blooms, made more impressive by their distinctive and unusual watermelon pink colouration. Flowering profusely from late winter to early spring 'Watermelon' will light up the garden with its vibrant radiance. Plant in full sun or partial shade in moist, well-drained, compost enriched soil. Deciduous.

SIZE	H 6m x W 3m
