

Kiwiflora *our genetics · your growth*

Everflame (syn. Belinda's Find)

UNCINIA RUBRA

A bright and colourful, sub-alpine sedge that adds drama and structure to containers, rockeries and the front of borders. *Uncinia rubra* 'Everflame' has fabulous, grass-like, bronze foliage with scarlet margins, which persists throughout the winter months in a fiery year-round display. This vibrant 'Red Hook Sedge' is a hardy, clump forming, perennial that will creep gently around damp (not boggy) areas of the garden. Best in full sun to enhance foliage colour. Evergreen.

SIZE	H 40cm W 40cm
BLOOM TIME	Insignificant - selected for foliage
FOLIAGE	Bronze-red, grass like
HABIT	Clump forming
PROPAGATION METHODS	TC/Divisions
HARDINESS	Heat and cold tolerant
