White Dazzler

CHOISYA TERNATA

This outstanding Choisya bursts into a mass of large, pure white flowers twice a year - spring and autumn. A faint fragrance, reminiscent of orange blossom, can be detected by discerning passers-by. Dark green leaves are comprised of 7 long narrow leaflets, giving the plant a wonderful texture and interest when flowers are absent. Choisya 'White Dazzler' forms a tidy, compact shrub, excellent as a filler in sunny garden borders, a container specimen or informal hedge. Cold hardy. Evergreen.

SIZE	H 1.2m x W 1m
BLOOM TIME	Spring & autumn
FOLIAGE	Dark green, deeply divided
HABIT	Dense, compact, rounded bush
PROPAGATION METHODS	Cutting
HARDINESS	
USDA HARDINESS ZONES	7b - 11
