Plum Hussey

COPROSMA REPENS

Generally more upright growing than other Coprosma repens varieties, Coprosma ‘Plum Hussey’ produces brilliant, lime-green, new spring foliage, producing a stunning contrast to the deep plum hues of mature foliage beneath. Use as hedging, colour rhythm in garden beds or container specimen. Plant in sun or semi-shade and protect from heavy frost. Trim to the desired shape, or at least once a year, to maintain a tidy, compact habit, Wind, coastal and dry tolerant, once established. Low maintenance. Evergreen.
