## Hearts of Gold

CERCIS CANADENSIS

The first known gold-foliaged Cercis! Add a stunning array of colour to your garden moving through purple, red, gold and green throughout the year. This wonderful native redbud displays a riot of color in early spring as brilliant lavender-purple blooms appear on bare branches. Spring foliage emerges red, maturing to gold; shaded leaves will be green. Large, heart shaped leaves are burn-resistant even in full summer sun. Likes to be in full or partial sun. Once established they need only occasional water, unless in extreme heat then a little more often. Beautiful as a feature tree or group together as an informal hedge.

<b>SIZE</b>	H 5m x W 4m
<b>BLOOM TIME</b>	Early spring
<b>FOLIAGE</b>	Golden yellow
<b>HABIT</b>	Small deciduous tree
<b>PROPAGATION METHODS</b>	Cutting
<b>HARDINESS</b>	
<b>USDA HARDINESS ZONES</b>	5 to 9
<b>LICENCE</b>	Available NZ
<b>PROTECTION STATUS</b>	NZ PVR30889
